

2ND “DAMS & SEISMS” EWG WORKSHOP

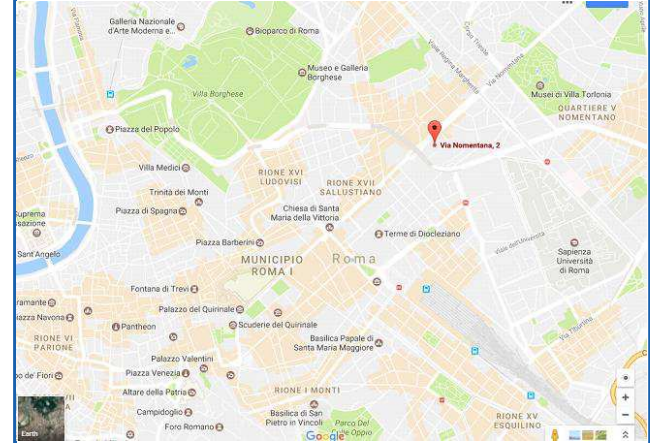

QUALIFICATION OF SEISMIC DAMS ANALYSES AND OF THEIR EQUIPMENTS & OF PROBABILISTIC ASSESSMENT OF SEISMIC HAZARD IN EUROPE LESSONS LEARNED FROM THE RECENT EARTHQUAKES IN ITALY.

FEBRUARY 6-7, 2017

This international workshop is the second annual meeting of the ICOLD European Club Working Group “Dams and Earthquakes”. ITCOLD invites researchers and experts free of charge. The deliverable will be presentations given to all the participants

ITCOLD invites experts to present and discuss the lessons learned from the 2016 & 2009 earthquakes in Italy and EWG participants to discuss two questions: “How the probabilistic seismic hazard assessment and the dynamic analyses are validated? What are the evidences of flaws or accuracy in current practice?”

Roma Italy

The meeting will be held in “Consiglio Superiore Lavori Pubblici”, in the heart of Roma City (Via Nomentana, 2 – Roma).
